

CTO - David W. Fisher

David Fisher has been in the software development industry for over 43 years and has developed and contributed to many different applications as well as custom Operating Systems. Mr. Fisher holds both a Bachelor and a Master's degree in Computer Science. Prior to Kwivira, David was instrumental in designing and developing the overall Operations Center software for World Bank located in Washington DC. He has worked with many different Management and Monitoring tools, including NOC (Novell Operations Center) and MAXM Systems. He was the senior systems integrator at Managed Objects and the Director of development at MAXM Systems.
